

# 7 WEEKS

## BIO :

7 WEEKS formed in april 2006 in Limoges, France. "All Channels Off", their first album, is the product of three years of creating a wall of sound and a style borrowed from genres such as Stoner Rock as well as from more alternative influences.

This record succeeds a demo which circulates on the internet, as well as their first EP "B(l)ack Days" in 2007 which lead the band to go on tour throughout France: 100 concerts from le Printemps de Bourges (FR) to the Rock For People Festival (CZ Rep).

The band supported Suicidal Tendencies and Infectious Grooves during their French tour in 2010 and have also played with: Arctic Monkeys, The Datsuns, Brant Bjork, the Inspector Cluzo, the Vibrators, Mass Hysteria, Lofofora...
